Section 1: Contextual and Endorsement Program Information

1a – Contextual information

Doane University History and Purpose

Doane has occupied a distinguished place among the colleges and universities of the Midwest as Nebraska’s first and oldest private liberal arts and sciences school.

On July 11, 1872, Doane College was founded. The college was officially incorporated at that time as a nonprofit institution governed by an independent, self-perpetuating board of trustees. It has received continuous accreditation from the North Central Association of Colleges and Schools, now named the Higher Learning Commission, since 1913.

Doane began its work in higher education for adult and non-residential students when it offered its first professional development classes in Lincoln in 1981. The current Lincoln campus was established in 1988.

In 2016, Doane College became Doane University, reflecting its structure of multiple campuses, colleges, and the addition of online programs. No matter the changes, Doane has continued to hold on to its liberal arts origins, prioritizing teaching, research, academic study and helping students reach success in all aspects of their education.

Doane is historically affiliated with what is now called the United Church of Christ (UCC). Doane serves as the representative institution for the Nebraska, Rocky Mountain, Kansas-Oklahoma, and South Dakota conferences of the UCC. Doane, although founded by Protestants, is open to students of all religions, as well as those who profess no formal religion.

Doane University Mission, Vision and Values

Doane University's mission is to create distinctive educational experiences, immersed in the liberal arts, to prepare our students for careers and lives grounded in inquiry, ethics, and a commitment to lead and serve in the global community.

Vision

Doane University will be a comprehensive university, recognized for innovation, valuing the liberal arts and professional studies in order to empower and prepare students for life, career, and community engagement.

Values

- **Inclusion:** Doane values creating an environment in which all individuals and communities are able to fully participate, belong and thrive in authentic ways.
- **Integrity:** Doane values ethical and principled decision-making and taking responsibility for one's actions.
- **Innovation:** Doane values forward thinking and the ability to develop and implement new or re-imagined ideas in a collaborative environment.
- **Transformation:** Doane values enhancing lives and developing potential.

Accreditation

Recognized by educational accrediting agencies, Doane University is accredited by the Higher Learning Commission and a member of the North Central Association. Its credits are accepted by the University of Nebraska and by state departments of education. Its graduates are regularly accepted to full graduate standing by leading American universities.

Programs at the university are also accredited by the Nebraska Coordinating Commission for Postsecondary Education, the National Association of Schools of Music, The Engineering Accrediting Commission of ABET, the Accreditation Council for Business Schools and Program, and the Council for Accreditation of Educator Preparation.

The university holds membership in the National Association of Schools of Music, the Council of Independent Colleges, the Association for Governing Boards, the American Association of Colleges of Teacher Education, the Association of Independent Liberal Arts Colleges of Teacher Education, The Council for the Advancement of and Support of Education, that National Association of Independent Colleges and Universities, and the Council of Independent Nebraska Colleges.

College of Education

Mission

Learn. Challenge. Empower. Transform.

Belief Statements

The College of Education of Doane University is a community that pursues and celebrates excellence. In this pursuit:

- We foster a vibrant intellectual community that values learning, collaboration, curiosity, inquiry and scholarship.
- We create connections and meaningful relationships.
- We cultivate a culture where all individuals are affirmed, challenged, and empowered.
- We advocate for diversity, equity and service through the support of socially just policies and practices.
- We promote the process of development and honor the journey that is individually and systemically transformative.

Educator Preparation Programs

Doane University has three academic colleges. The Teacher Education Programs reside within the College of Education which includes the Department of Teaching and Learning, the Department of Education Leadership and School Counseling, and the Department of Mental Health Counseling.

The College of Education holds primary responsibility within Doane University for the preparation of teachers and administrators. In collaboration with other academic departments of the University, the department offers certification programs to prepare teacher candidates and administrators in grades pre-kindergarten through twelve. The educator preparation faculty and our colleagues across the university share a commitment to quality programs that will meet the challenges facing educators and administrators in the next decades.

Guiding Principles

- The teacher education programs utilize historical, philosophical and practical knowledge as the foundation for understanding educational purposes and values.
- All teacher education students have a strong foundation in pedagogical knowledge, skills, and dispositions. Emphasis is placed on learning content in context through collaboration and reflection.
- The teacher education faculty engages key stakeholders in intentional processes and reflection on data and practices that lead to continuous improvement of the programs.
- The teacher education programs design and revise certification areas based on current theory, research, applied practice, state and national requirements and program review.
- The teacher education programs provide leadership opportunities for students to engage in meaningful dialogue and experiences concerning issues of diversity, equity and inclusion.
- The teacher education program makes intentional its commitment to the principles of diversity, equity and inclusion by encouraging all stakeholders in continual growth and reflection. This is evident in the growth of personal and professional understanding and practical application in all aspects of teaching and learning.
- The teacher education faculty and pre-service and in-service teachers engage in meaningful exploration and dialogue about the world of practice to enhance contextual understanding.
- The teacher education faculty utilizes authentic forms of assessment, including performance assessment, and traditional forms of assessment to evaluate students and programs.
- All early childhood, elementary, ESL, middle school, secondary and special education pre-service teachers demonstrate competency in their respective academic areas and complete practica in their certification area(s).
- The teacher education programs integrate practicums and internships throughout the student experience designed to participate in the real world of teaching. Simultaneously and with intentionality, students analyze local and global issues through on campus course work designed to intersect with the varied real world experiences of Pre
- students, families and communities.

- The teacher education programs pledge the competence of their program completers to the employing school. This pledge assures that beginning teachers enter the professional work force with adequate knowledge, skills and dispositions to successfully fulfill responsibilities of the teaching profession or the teacher education programs will provide in-service education for the graduate.
- The teacher education program continues to support program completers through their first year of teaching with mentoring efforts in the schools, along with optional guided seminar sessions.

Teacher Education Program Standards

Doane's Standards are modeled after the INTASC standards.

1. Understands Content

The developing professional understands the content knowledge of the discipline(s).

- 1) Demonstrates knowledge of content central to discipline, changing global perspectives, and digital work with discipline.
- 2) Incorporates content knowledge to facilitate P-12 student learning.
- 3) Links content knowledge to local, state and national standards.
- 4) Establishes interdisciplinary connections bringing multiple perspectives to the discussion of content.
- 5) Facilitates students' ability to develop diverse and cultural perspectives.

2. Understands Development

The developing professional understands how children learn and develop, and provides opportunities supporting intellectual, social, and personal growth.

- 1) Demonstrates knowledge of students' developmental characteristics.
- 2) Uses learning theories to make informed educational decisions.
- 3) Selects developmentally appropriate objectives, instruction and activities.

3. Understands Differences

The developing professional recognizes and provides for individual differences and diversity.

- 1) Analyzes each student's needs to ensure fairness and equitable opportunity for students to learn.
- 2) Infuses appreciation and awareness of race, gender, class, culture, religion, language, family, and community to acknowledge students' identities and enhance learning.
- 3) Fosters attitudes that value diversity and social awareness within the community.

4. Designs Instructional Strategies

The developing professional uses a variety of instructional strategies to encourage students' development of skills and strategies for critical thinking and problem solving.

- 1) Uses a variety of teaching and learning strategies to actively engage students in authentic learning experiences.
- 2) Enhances learning through the use of a wide variety of resources, including those of technology and the community.
- 3) Continually monitors and adjusts the teaching process in response to the learner's ideas and needs.
- 4) Differentiates instruction based upon process, product, content and environment to meet each student's needs.
- 5) Provides multiple models and representations of concepts and skills.
- 6) Engages students in learning experiences in discipline(s) that encourage students to understand, question, and analyze ideas from diverse perspectives while thinking analytically, critically and creatively.

5. Motivates and Manages

The developing professional creates a positive learning environment utilizing motivational

strategies and classroom management.

- 1) Conveys high expectations and provides support for individual student achievement to ensure success for all.
- 2) Applies knowledge of motivation and behavior to develop strategies for organizing and supporting individual and group work.
- 3) Uses a variety of effective classroom management strategies to promote learning and to create a climate of openness, fairness, mutual respect and inquiry.

6. Communicates

The developing professional applies knowledge of effective communication techniques.

- 1) Demonstrates effective oral, written and nonverbal communication and listening skills to convey ideas and information with all audiences.
- 2) Communicates with sensitivity.
- 3) Models a variety of digital age work to enrich learning and communication.
- 4) Advocates, models, and teaches safe, legal and ethical use of information and technology.

7. Plans

The developing professional utilizes effective planning techniques.

- 1) Designs appropriate instructional plans that align with curriculum goals and standards.
- 2) Utilizes principles of effective instruction when creating learning experiences.
- 3) Designs learning experiences including digital age learning to meet student's developmental stages, intelligences, learning styles, strengths and needs.
- 4) Selects appropriate strategies and accommodations, resources, and materials to differentiate instruction for individuals and groups of students.
- 5) Evaluates and modifies instructional resources and curriculum materials.

8. Assesses

The developing professional understands the assessment processes.

- 1) Designs assessment criteria and performance levels that match learning objectives with assessment methods and minimizes sources of bias.
- 2) Selects and implements culturally and developmentally appropriate assessment strategies by engaging students in multiple ways of demonstrating knowledge.
- 3) Conducts ongoing informal and formal assessment strategies in the instructional process.
- 4) Uses assessment data and technology tools to plan for student learning.

9. Reflects on Practice and Teacher Preparation

The developing professional is a reflective practitioner who actively seeks opportunities to grow professionally.

- 1) Views self as a learner continually growing and changing.
- 2) Reflects on personal and professional growth.
- 3) Accepts, reflects, and initiates change based upon feedback.
- 4) Explores innovative practices for student learning.
- 5) Reflects on personal biases and accesses resources and experiences to deepen understanding of cultural, ethnic, gender, and learning differences.

10. Participates in the Professional Community

The developing professional fosters relationships with school colleagues, families, and agencies in the larger community to support students' learning and well being.

- 1) Acts as an advocate for students.
- 2) Initiates and maintains collegial relationships.
- 3) Seeks leadership and professional growth opportunities in the educational community.

- 4) Models and promotes professional behaviors and digital citizenship.

1b – Standards for admission, retention, transition, and completion

Table 004.06-2 identifies the three transition points, or gateways, for successful completion of the initial certification teacher education program at Doane.

004.06-2 Requirements for Program Admission and Progression

Completion of the 12 graduate credits in the summer following graduation successfully	Completion of all coursework successfully

The [Doane Teacher Education Program \(DTEP\) Handbook](#) provides additional information regarding the requirements that must be met.

[Special Education Advising Guide](#)

1c - Field experiences

Students complete a minimum of 225 clock hours of clinical field experience prior to admission to student teaching/internship. This field experience component is designed to engage the pre-service teacher in teaching and learning experiences in PK-12 classrooms. These experiences can include lesson design and implementation, small group facilitation, and one-on-one instruction. These experiences are meant to allow the student an opportunity to build upon his/her classroom learning and apply that learning in an immediate and relevant setting. Responsibilities include observation, planning for instruction, teaching, action research and evaluation of student learning and self- reflection.

Student teaching/internship follows successful completion of practicum. Student teaching/internship is an extended ten to sixteen week experience in a PK-12 setting where each student has primary responsibility for a classroom. Student teachers/interns are expected to reflect upon their experiences from the perspective of a developing professional. They are further encouraged to construct their own understandings that encompass the process of teaching and learning.

Doane University makes student teaching/internship placement only in school districts or institutions which are fully accredited by the Nebraska Department of Education. (Nebraska Department of Education, NAC 92, Rule 20, 005.03A2b and 006.03). All student teaching placements are made with cooperating teachers who are selected jointly by the cooperating school and Doane University and who meet the criteria established by the Nebraska Department of Education (NDE) and Council for Accreditation of Educator Preparation (CAEP). These criteria are: (a) a standard Teaching Certificate (NAC 92, Rule 20, 004.02D); (b) endorsed in area of supervision; (c) at least three years of successful teaching experience (NAC 92, Rule 20, 004.02D); (d) a good performance record and show professional growth; (e) the temperament, desire, and ability to work with a student teacher; (f) perform as a professional and encourage the development of a professional attitude on the part of the student teacher.

1d – Program completers

Program Completers and Level – Content Area: Special Education										
Academic Year					Number of Endorsement Program Completers					
					Bac	Post Bac	Alternate Route	Masters	Ed. Specialist	PhD
22	22	to	20	23	9	5	NA	NA	NA	NA
20	23	to	20	24	7	4	NA	NA	NA	NA

In 2022-23 and 2023-24 there were a total of 25 completers (16 at the undergraduate level and 9 post-bac) in special education. All completers can be found in Table 1d Program Completers and Level above.

Section 2: Endorsement Program Key Assessments and Related Data

It is filled out by the supervisor and cooperating teacher. The combined rubric demonstrates overall proficiency of the candidates.	End of clinical practice experience (student teaching)
	NE Clinical Practice Assessment and			
8	Optional Assessment			

Key Program Assessment #1 – Content – Praxis II or GPA

The Praxis II subject-specific tests are administered by the Educational Testing Service (ETS). Each test measures content knowledge in the area. The results are reported to the candidate and our institution as an overall score and has sub-category scores that vary depending on the content area. The test and the passing score are determined by the Nebraska Department of Education (NDE).

GPA – For undergraduate completers GPA that reflects only courses in their major (content area); For graduate GPA overall GPA is used

Assessment: [Nebraska Praxis Content Tests](#) (“Praxis Content Test Chart” indicates the test number and passing score)

Key Program Assessment #2 - Content

The Nebraska Clinical Practice Assessment. This assessment was developed, validated, and underwent reliability tests by the [Nebraska Department of Education](#). It is the required clinical practice assessment rubric by all Educator Preparation Programs in the state of Nebraska. We use the Anthology software to collect data from digital rubrics and are able to use the software for that analysis and reporting. At the conclusion of the clinical practice experience the cooperating teacher and supervisor fill out the form as a summative assessment. This summative data is analyzed annually and reviewed by the Teacher Education Program, Program Directors, and the Vision Improvement Partners (PK-12 advisory group). The goal is that all candidates are at the “proficient” level by the conclusion of their clinical practice semester. Standards 4 and 5 address content knowledge and application of content.

Artifact 3 – narrative interpretation/summary of assessment data

Key Program Assessment #1 – Content – Praxis II or GPA

Recent trends and changes in certification rule requirements from NDE have led to decreasing numbers of students who choose to complete the Praxis II exams, the exam is not required for program completion, but only for certification. It is likely that the exams will no longer be required for certification in the near future.

46 out of 48 candidates took and passed the elementary praxis content exam. In both 2021-22 (25/25) and 2022-23 (21/23).

GPA is computed for all coursework in the major (content area) for undergraduates and overall graduate GPA for graduate level certification students in the Initial Program at the Advanced Level (IPAL). All elementary completers earned a 3.45 (UG) 3.85(IPAL) or higher in 2022-23, with an average GPA of 3.78(UG) and 3.96 (IPAL). In 2023-24, the average GPA was 3.87 (UG) and 3.95 (IPAL) with all completers earning at least a 3.56 (UG) and 3.77 (IPAL) or higher.

Key Program Assessment #2 - Content

There are three items, Standards 4, 5a, and 5b, on the Nebraska Clinical Practice Assessment that relate to content knowledge and application. Data from both the undergraduate program and the IPAL program maintain consistent ratings on the assessment with mode scores of 3's and 4's. The differences in scores between the IPAL and undergraduate groups are minimal. In addition, mode scores between cooperating teachers and university teachers are very consistent in this area.

Key Program Assessment #3 - Learner/Learning Environments

There are three items, Standards 1, 2, and 3, on the Nebraska Clinical Practice Assessment that relate to learner and learning environments. Data from both the undergraduate program and the IPAL program maintain consistent ratings on the assessment with mode scores of 3's and 4's. The differences in scores between the IPAL and undergraduate groups are minimal. Standard 3 (classroom management) is consistently on the lower end of the scores and also has the most inconsistency in ratings. Classroom management is a difficult skill to learn and varies greatly by classroom context. This remains an area of emphasis for the program.

Key Program Assessment #4 - Instructional Practices

There are five items on the Nebraska Clinical Practice Assessment that relate to instructional practices, Standards 6.1, 7, 8.1, 8.2, and 8.3. Data from both the undergraduate program and the IPAL program maintain consistent ratings on the assessment with mode scores of 3's and 4's. The differences in scores between the IPAL and undergraduate groups are minimal. There is some pattern of the IPAL university supervisors consistently rating candidates higher than their cooperating teachers in 2022-23, in 2023-24 that trend remains but ratings are much closer.

Key Program Assessment #5 - Instructional Practices - Effectiveness

There is one item on the Nebraska Clinical Practice Assessment that relates to instructional practices, Standard 6.2. Data from both the undergraduate program and the IPAL program maintain consistent ratings on the assessment with mode scores of 4's. This item provides a quick snapshot of candidate effectiveness and is the highest rating in the area of all the Doane programs.

Key Program Assessment #6 - Professional Responsibility

There are three items on the Nebraska Clinical Practice Assessment that relate to instructional practices, that relate to professional responsibility, Standards 9, 10. Data from both the undergraduate program and the IPAL program maintain consistent ratings on the assessment with mode scores of 3's and 4's, with a majority of items with a mode of 4. The differences in scores between the IPAL and undergraduate groups are minimal. In addition, mode scores between cooperating teachers and university teachers are very consistent in this area.

Key Program Assessment #7 - Overall Proficiency

The overall review of the Nebraska Clinical Practice Assessment data indicates candidates are proficient in each of the items described in Assessments 1-6. Overall mode scores for both cooperating teachers and supervisors for both years of data reflect 3s and 4s suggesting completers are reaching proficiency.

Section 3 – Use of related data and information for continuous program improvement of endorsement program

Since our last NDE review, several changes have occurred both within the teacher education programs and as an institution. The addition of the common NDE clinical practice assessment and 1st and 3rd year follow up surveys have provided Doane with important and relevant information and data to inform practices.

Recent changes to NDE rules have also eliminated the requirement of both Praxis II content exams and Praxis 1 Basic Skills requirements for teacher education program candidates and completers. The removal of these assessments encouraged the Doane teacher education programs to seek input from our PK-12 partners on ways to continue to ensure the highest quality candidates. Feedback from those partners and observations from our faculty led the program to develop and implement a new measure related to supporting candidates teacher identity development. This new assessment is consistently used to guide candidates and assess progress toward teacher identity.

Though the data provided from assessments supports the quality of the Doane initial programs and completer effectiveness, inconsistency between cooperating teachers and university supervisors was noted. A change related to the data from the clinical practice assessment and 1st and 3rd year follow up surveys involved intentional efforts to foster consistency in ratings between K-12 cooperating educators and university supervisors during field experiences and particularly, clinical practice. Clarifications to provided information, support, and multiple modality options for connecting with Doane program directors have been implemented in efforts to ensure the program assessments are used reliably.
